

Draft Horse Registration FAQs

*Please see Online Horse Registration FAQs for additional information.

How do I enter a team in hitch classes?

Create a team with the proper number of horses for the class attempting to enter. Ex: if entering a four-horse hitch class make a team with one driver and four horses.

TEAM INFORMATION

Each team must have at least one rider or one horse depending on the desired classes.

<input checked="" type="checkbox"/> Horse 3	
<input checked="" type="checkbox"/> Horse 4	
<input type="checkbox"/> Horse 5	

What if I don't know all the information for the horses in my hitch?

Hitch horses may be given generic names and birthdates. The crucial information required is to select horse sex and the type of stall requested. Sex may determine which classes can be entered. Stall type determines the type of stalls assigned in the barn. This will be the ONLY opportunity to choose stall type.
